

JANUARY 2022

Professional Development Offerings

To register for a particular workshop or to read its description, click on the time of that workshop. This will link you to the registration portal for that workshop. Email pd@agendaforchildren.org with any questions regarding registration.

Registration is offered free of charge to staff who work at Type III programs and family child care providers registered with the Child Care Assistance Program. Registration for participants from Type I and Type II centers and school-based programs is \$10-30 per participant per session. Due to restrictions in our funding, we are not able to open registration to Type I and Type II centers until we have enough participants from Type III centers; we apologize for any inconvenience this may cause.

Participants will need to register for each individual session they would like to attend. Sessions are capped at 25 participants, so we encourage you to register as soon as possible. You will receive the session Zoom link with your confirmation email as well as in a reminder email two days before your session. If you register for more than one session, please ensure you are logging into your session with the correct Zoom link.
