Community Network Lead Agency (CNL NOLA Public Schools & Agenda for Children

Early Childhood Access - Assurances

Provide specific information as to how the Community Network Lead Agency (CNLA) provided opportunities for each publicly-funded program in the community network and the general public in the coverage area to comment on the proposed funding request. Include dates and events.

The CFR Evaluation Team sent a copy of proposed allocation recommendations via email to all programs who applied for LA4, B-3, and NSECD seats on January 18. The proposed allocation recommendations were shared during the December 4, 2023 NOEEN enrollment subcommittee meeting. In addition to this cmmunication, all programs, as well as the general public, were invited to join, or watch via livestream, at the December 6, 2023 NOEEN Steering Committee meeting during which the proposed seat allocations were presented, discussed, and voted on. In compliance with open meeting law, there was opportunity for public comment. Finally, the CFR Evaluation Team hosted a CFR Office Hours via Zoom on XXX to walk providers through the decision-making criteria and final allocations as voted on by the Steering Committee.

Provide information about the criteria and process used to develop the CNLA request and describe how the criteria were used in selection of providers.

Our Coordinated Funding Request process strives to ensure that the limited amount of funding available is allocated to centers that are high quality, in high demand, and meet the needs of families and the community. The process includes a request application submitted by providers which is scored by an evaluation team using a standardized rubric that focuses on quality, demand and each centers' ability to meeting family needs. The evaluation process includes an interview with the center director and site visits to all new sites or existing sites that are new to requesting seats. Scores are compiled using rubrics (that are made publicly available). Evaluation teams meet with their scored rubrics and took the average score, resulting in each site receiving a single score. These scores are then factored into allocation decisions that are voted on and approved by the NOEEN Steering Committee. The committee prioritized continuity of care and increaseing seats in underserved geagraphical areas. We work closely with our research parterns at Tulane (CECR) and the Data Center to ensure a more data driven approach so allocations are meeting the needs of the community.

Provide information about how your Child Count numbers were used to develop the CNLA request, and describe how the Child Count numbers were shared with your partners.

Enrollment data, including child count numbers are shared monthly at the NOEEN Steering Committee meeting. Addtionally, all programs have access to their enrollment data including rosters, seat availability and waitlist information anytime through our unified enrollment data system. Child Count/Enrollment data was

waitlist information anytime through our unified enrollment data system. Child Count/Enrollment data was used to develop our request by understanding how many students will age up in their current center so we can ensure continuity of care. We used demand data from our common application process and waitlist information to determine geographic areas of high demand and need for families as we evaluated all requests including where to place infant seats, since they do not included continuity of care decisions.

List any community concerns or comments about this proposed request.

Despite gains made through local investment resulting in increased family access to seats by adding additonal B-3 seats across the city, demand and eligibility for seats still exceeds availability. Another local concern is that current funding allocations for NSECD and LA4 still fall short of the cost to provide quality programs to students served by these funding sources and is resulting in more and more schools deciding to discontinue offering PK3/PK4 programs. In working with our partners we have learned that a high quailty PK seat costs closer to $11,000 per student and we will continue to do more work to better understand and advocate for the true cost for PK.

LA 4 & NSECD Request

Community Network: NOLA Public Schools & Agenda For Child

Directions: Please complete the table below for your CNLA's request of seats from each funding source. You may add rows as needed. "Prioritization of Request" asks that you rank your school system/site as which should be or will be allocated seats first, as all requests may not be able to be met. In the "Justification" column, please write one sentence about why you ranked those priorities as you did. Please include with NSECD three-year-old seat requests explanation for the use of NSECD funding for threes. Please add or delete rows as needed.

Seat Request			LA 4				NSECD			
Site Code	School System/Site Name		2024-2025 LA 4 Seat Request (Number of seats for site)	Prioritization of Request	Justification	Site Name	2024-2025 NSECD Seat Request (Number of 3-year-old seats for site) *Justification required	2024-2025 NSECD Seat Request (Number of 4-year-old seats for site)	Prioritization of Request	Justification

CCAP B-3 Seats Request **Community Network:** NOLA Public Schools & Agenda For Children

While there are currently more limited monies available for B-3 Seats in the 2024-25 academic year than in the 2023-2024 academic year, please enter the number of seats you would like to request, and the Department will use this request to make decisions with the funds that are available.

***Directions** : Please write the child care provider under "child care name," input the number of seats you wish to fill with CCAP B-3 Seats funding at that location, and rank the sites by priority, as not all requests will be able to be met by the LDOE. Please add or delete rows as needed.*
